

OASIS MOIST SKIN CLEANSING WIPES SAFETY DATA SHEET REVISION 1 – 09.08.11

FIRE-FIGHTING MEASURES

Suitable extinguishing media are water spray, foam, carbon dioxide and dry powder.

Standard protective equipment should be worn by firefighters

In the event of a large fire toxic fumes containing oxides of carbon may be formed, which would necessitate the use of a self-contained breathing apparatus.

ACCIDENTIAL RELEASE MEASURES

Absorb any impregnating liquid onto a suitable inert material and collect mechanically with spilled product for subsequent disposal.

HANDLING AND STORAGE

Handling: No special measures required.

Storage: Store under normal warehouse conditions

EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure controls: No assigned values for the components of this product.

Personal protection: None required under normal conditions of use.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Nonwoven fabric impregnated with a colourless liquid.

Odour: Slightly fragranced.

STABILITY AND REACTIVITY

The product is stable under normal conditions and no chemical incompatibility is known.

OASIS MOIST SKIN CLEANSING WIPES SAFETY DATA SHEET REVISION 1 – 09.08.11

TOXICOLOGICAL INFORMATION

Some of the components of the impregnating liquid are reported to have a mild irritant effect on the eyes.

None of the components of the impregnating liquid are reported to have a sensitising potential.

Note – According to experience the product is considered to be harmless to health if used in the correct manner.

ECOLOGICAL INFORMATION

Environmental Statement

Biodegradability/Recycling of component materials and packaging.

All surfactant components of the impregnating liquid conform to current EC Directives on biodegradability. Many perfumery raw materials are of natural origin and so are expected to be broken down by micro-organisms present in the soil and sewerage treatment systems. The small remainder of perfumery materials of synthetic origin are unlikely to reach concentrations where they would adversely affect the environment. They are most likely to degrade into harmless by-products by both chemical oxidation reactions and micro-biological action.

The product consists of Polypropylene material which is not biodegradable, but is perfectly safe and there are no special requirements regarding disposal.

The material is 100% recyclable for industrial use.

Standard Polymer films used for packaging purposes are usually stable and resistant to degradation. Effective use of local authority plastic recycling facilities contributes to a reduction of the environmental impact and improves usage of resources. All packaging film as supplied is 100% recyclable.

DISPOSAL CONSIDERATIONS

Do not flush and dispose of the product according to local and national regulations.

TRANSPORT INFORMATION

This product is not classified as “Dangerous” for transport purpose.

OASIS MOIST SKIN CLEANSING WIPES SAFETY DATA SHEET REVISION 1 – 09.08.11

REGULATORY INFORMATION

This product is not classified as “Dangerous” for labelling purposes.

Safety phrases (Not considered mandatory)

S(2) – Keep out of reach of children

S26 – In case of contact with eyes, rinse immediately with plenty of water and seek medical advice

OTHER INFORMATION

The information contained in this Safety Data Sheet, which has been prepared in accordance with Directive 91/155/EEC as amended by 93/112/EC, is believed to be correct and corresponds to the latest state of scientific and technical knowledge.
